SKILLS

Html5	CSS/Sass
JavaScript	React.js
Node.js	Git/Github

PROJECTS

Stay fit Exercise app

- . Built a react fitness app that has the functionality to choose exercise categories and specific muscle groups. browse more than 1 thousand exercises. it also pulls related videos from YouTube, displaying similar exercises.
- . Used React Router and dynamic client-side routing to navigate different sites and pages on the app.
- . Designed the beautiful interface using Material-UI, fully responsive for all media screen sizes. with media queries -[View Live](#) 

GO Weather app

- . Built a weather app with react.js and tailwind CSS using Open Weather Map API. Its functionality also includes hourly and daily weather forecasts.
- . I used React Toastify to show toast to display notification alerts on the application for a while. implemented Luxon for the formatting of date and time in standard form. React-Icons for icons.
- . Fetched data from Open Weather endpoints. Get temperature, max, min, humidity, real feel, sunrise, sunset, hourly, and daily forecast on the app. -[View Live](#) 

I Note Book

- . Developed a note app with react.js with so many functionalities.
- . Used CSS grid to implement the notes responsive. has a search section for notes. adding notes and character counts.
- . Used local storage to store notes. Has a toggle dark mode effect. -[View Live](#) 

Ever-Clean Service

- . Build the front end of a cleaning service website. Using Html CSS JavaScript.
- . Modern and clean design implementation.100% responsive across all device screen sizes. Using perfectly placed media queries.
- . AOS-Animate on scroll library for animations on the website. Easily customize theme color, light, and dark mode. -[View live](#) 

QUALIFICATIONS

- . Able to code web pages from the ground using Html, CSS, bootstrap reacts, and JavaScript. along with a working proficiency with Git version control and WordPress content management.
- . I possess knowledge of modern Web design. and have a fundamental understanding of mobile-first design concepts. cross-browser development. API implementation on the web page.
- . 2 years of customer service experience, grant me the ability to easily communicate with clients and fellow teams to establish the necessary requirements to complete our daily tasks in a professional and timely manner.
- . The primary focus of my studies in web development has been HTML CSS JavaScript. I have created multiple websites and I have also volunteered my time to gain more professional experience using these skills. I recently turned my focus to furthering my JavaScript skills by working more with vanilla and React.
- . My daily use of Git for version control via Linux command line interface and backing up my work to GitHub regularly. and am also familiar with the IDE work environment.
- . I have a thorough understanding of object-oriented programming with JavaScript as well as JSON knowledge

PROFESSIONAL QUALITIES

- . Analytical and problem-solving skills
- . Time management
- . Effective Communication
- . Ability and eagerness to learn
- . Adaptability
